

INDEPENDENT TRUSTEE COMPANY

SPECIALIST IN SELF-ADMINISTERED PENSIONS

“Our structures are flexible and transparent.”

WHO WE ARE AND WHAT WE DO

We are an Irish-owned professional trustee company. Established in 1994, our aim is to ensure that you get the most out of your pension. We do this by providing you with a transparent and flexible framework which allows you to make the investment decision in conjunction with your financial advisor. As one of Ireland’s leading providers of self-administered pensions, we administer over €2.5 billion of client funds in over 6,000 pension structures.

“We tailor your pension to suit your needs.”

A SELF-ADMINISTERED PENSION

A pension trust is a tax-efficient way of saving money for retirement years. Saving for retirement is an important part of planning for you and your family’s future. A self-administered pension offers you the control over what your pension is invested in, thereby tailoring your pension to suit your needs.

THE IMPORTANCE OF GOOD GOVERNANCE

In the area of self-administered pensions, good governance is a key element to your funds' success. Good governance is what we provide. Our staff has the necessary skills and expertise to deliver an efficient and professional service.

Our self-administered pensions are based on four key elements:

- 1. Control** – *decide on all scheme transactions.*
- 2. Transparency** – *all fees are visible and you can view your pension scheme online through your desktop or the ITC Client Portal App.*
- 3. Flexibility** – *there is a wide range of investment opportunities; cash, property, bonds, shares, etc.*
- 4. Security** – *we hold pension schemes off our balance sheet which means that the security of your assets is entirely independent from the financial standing of ITC.*

“We believe we have the most secure pension structures in the marketplace”

OUR APPROACH

The table below sets out the approach we take when structuring your pension assets. This approach allows you, your advisor and indeed ourselves sleep easy at night.

	ITC APPROACH	STANDARD INDUSTRY APPROACH
Assets Pooling	Segregated Accounts	Pooled Accounts
Visibility	View pension online	No Visibility or Memo Bank Account
Approach to Investments	Client and advisor sign off on all investments	Discretionary Portfolio Management
Approach to Divestments	Client sign off on all divestments ⁽¹⁾	Assets can be sold without client agreement
How are Assets Held	Assets held under Trust	Assets held by Pension Provider
Assets on Providers Balance Sheet	No	Yes ⁽²⁾

1. Subject to payment of levies and charges or complying with court orders or contractual terms.
 2. If the other Provider is an Insurance Company then the assets are held on the Insurance Company Balance Sheet.

WORKING WITH LEADING ADVISORS

One of the most important elements of our business is the close relationship we maintain with the advisors we work with. We partner with leading professional advisors throughout the country, providing support and advice on technical matters. A self-administered pension allows you to engage with your advisor to choose both the risk appetite and investment type you are comfortable with.
